Autism Spectrum Disorder (ASD) is more common than many people think — about 1 in 36 children are on the spectrum. Autism is called a spectrum because every person is unique, with different strengths and challenges.

.....

Did you know that some people may be on the spectrum and not even realize it?

.....

Many autistic individuals go undiagnosed for years, especially when their traits are subtle or misunderstood.

## Let's talk about it.

**Audra Latschislaw, Executive Director of Community Living Manitoba, will be attending with some information about Bill 232 – The Autism Strategy Act.**

**APRIL 7, 2026 7:00 PM**

**THE CONNEXION**  
342 First Ave, Arborg, MB

In partnership with FAN  
(Family Advocacy Network)
